

Kangqore Global — Official 15 Department Service Organization (2026)

Updated with Department 7 → Product Engineering

DEPARTMENT 1 — AI & Cognitive Services

Mission: Build intelligent, autonomous enterprises powered by GenAI and cognitive automation.

- Generative AI
- AI & Cognitive Computing
- AI Governance
- Data Science & AI
- GenAI Business Services
- Cognitive Business Operations
- Intelligence Engineering

DEPARTMENT 2 — Data, Analytics & Insights

Mission: Turn enterprise data into strategic intelligence.

- Analytics
- Big Data

DEPARTMENT 3 — Cloud Engineering & DevOps

Mission: Build and operate cloud-native, scalable, reliable enterprise systems.

- AWS
- Cloud & DevOps
- Managed Cloud Services
- Microsoft Services

DEPARTMENT 4 — Cybersecurity & Digital Trust

Mission: Protect enterprises with secure, resilient, zero-trust architectures.

- Cybersecurity

DEPARTMENT 5 — Digital Transformation & Modernization

Mission: Modernize legacy systems and accelerate digital reinvention.

- Application Modernization
- Digital Transformation
- Legacy Modernization
- Technology Modernization
- Technology Transformation
- Digital Business Transformation

DEPARTMENT 6 — Automation & Process Intelligence

Mission: Automate workflows and reinvent processes with AI-driven efficiency.

- Digital Process Automation
- Robotic Process Automation
- Automation Testing
- Business Process Management

DEPARTMENT 7 — Product Engineering

Mission: Engineer high-performance digital products using modern R&D, advanced engineering, and scalable architectures.

- Embedded Design System & IT/OT Transformation
- Engineering Foundry
- Engineering R&D; Services
- Product Digital Engineering Services
- Software Product Engineering
- Quality Engineering & Assurance
- Digital Engineering & Manufacturing

DEPARTMENT 8 — Infrastructure, Networks & Operations

Mission: Deliver secure, reliable, modern digital infrastructure for enterprise-scale operations.

- Infrastructure & Capital Projects
- Managed Infrastructure Services
- Modernization Infrastructure
- Managed Services

DEPARTMENT 9 — Consulting & Advisory Services

Mission: Provide strategic guidance to reinvent technology, processes, and business models.

- Technology Consulting Services
- Strategy Consulting
- Discover & Frame Workshops

DEPARTMENT 10 — Product, Software & Platform Engineering

Mission: Build scalable digital platforms and modern, high-quality software systems.

- MVP Acceleration
- Product Strategy & Experience Design
- Software Testing
- Software Development
- Low Code
- API & Microservices Engineering

DEPARTMENT 11 — Enterprise Applications & Platform Solutions

Mission: Implement, customize, and optimize industry-leading enterprise platforms.

- Enterprise Platform Integration
- Pimcore
- Salesforce
- ServiceNow
- Enterprise Mobility

- ECM Solutions

DEPARTMENT 12 — Emerging Technologies & Future Systems

Mission: Explore, scale, and commercialize frontier technologies.

- Blockchain
- Ecosystem Partners
- Emerging Technologies
- IoT
- SDN & NFV
- Networks

DEPARTMENT 13 — Business Operations, GCC & Enterprise Services

Mission: Deliver operational excellence, global capability models, and enterprise-wide managed operations.

- Finance & Risk Management
- Global Capability Centers (GCC)
- Marketing Services
- Talent & Organization
- Supply Chain
- Unified Services Management (USM)
- Customer Services

DEPARTMENT 14 — Sustainability, Climate & Green Transformation

Mission: Drive net-zero transformation and sustainable enterprise operations.

- Sustainability

DEPARTMENT 15 — Support, Operations & Technical Services

Mission: Ensure post-launch stability, continuity, and operational reliability.

- Support & Maintenance
- Operation Technology
